

# Assessing oxygenation

How do I assess for adequate oxygenation?

65 kg

Is this adequate intake of O<sub>2</sub>?

Check PaO<sub>2</sub> on ABG

ABG results (PaO<sub>2</sub>)

80–100 mmHg

<80 mmHg

>100 mmHg

Interpretation

Acceptable range

Hypoxemia

Hyperoxemia

Recommendation

Maintain settings

Increase FiO<sub>2</sub>? Increase PEEP

Reduce FiO<sub>2</sub>
